The meeting started with the name of Allah. The members of the committee scrutinized the grievances of the firms participating in the tender of Pathology Lab Kits for the year 2017-18 and the following decision^s were made:-

1. M/s Gulf Marketing International filed the grievance that PIC has rejected their quotation on the basis that he has not provided the sole distribution certificate. Company pleaded that they are sole distributor of P2 Poland. It was mentioned in the tender that sole distributor should be of parent company.

The company also pleaded that the screening devices quoted by the company were not accepted due to non-availability of WHO certificate.

The committee heard the representatives of the firm and decided that the plea by the company about sole distribution is incorrect. Sole distribution and the brand combined means sole distribution by the parent company who are suppliers of reagents as well as the instruments. Hence the grievance is rejected.

The end user told that the said devices have been evaluated and reported that the results were not up to the mark. So the grievance regarding screening devices is also rejected.

Decision

Grievance of the firm was rejected.
